9) It is not desirable or correct to accord administrative sanction unless there is the certainty of our being able to find funds for this work in the next year's ~~budget~~. budget. It is too early yet to say whether we can find funds for this work after meeting the requirements of sanctioned works and other more urgent works. The proposal may therefore be noted for consideration at next budget time.

NOTE—Contn. Sheet

Final Note by the Second Member of Council.

Subject.— Proposal to sanction an estimate for ₨93,000/- for the construction of a new machine room for the Government Press, Bangalore.

The Superintendent, Government Printing, reports that on account of considerable increase of work in the Central Press and the allied offices at Bangalore in recent years, the present accommodation especially in the machine branch has become overcrowded, that the present machine room is moreover an old style building with no proper ventilation and that additional accommodation is, therefore absolutely necessary not only to relieve the present congestion, but also to house the three new printing machines, for which an order has been placed with Messrs Linotype and Machinery Co., London, required for the printing of educational text-books..

He therefore requests sanction for the construction of a factory style roofed machine room at the back of the Press. A rough abstract estimate for Rs 93,000/- for this work has been prepared by the Public Works Department. The cost will be met out of the sanctioned grant under " 24 Civil Works " for the present and the Chief Engineer will be asked to apply for the minimum additional grant required for the work during the current year.

The Dewan and the First Member of Council have agreed to the proposal. I solicit His Highness' gracious sanction to the estimate for Rs 93,000/- for the work.

M. Venkatarama Iyer

SECOND MEMBER OF COUNCIL.

Bangalore,
24th January 1940.

Submitted to His Highness.

To

J. APPAJI GOWDA, Esq., B.A.(Hons.),
Secretary to the Government of Mysore,
Development Department, BANGALORE.

SIR,

(Linked file.) With reference to Government Order No.P.W.933-6-S, dated the 22nd September 1938, directing that the question of extending the Government Press buildings at Bangalore may lie over for the present, I beg to submit for the reconsideration of Government the urgent need for the extension of the building and to state that in view of the terrible congestion that prevails in the present buildings, the provision of additional accommodation and additional equipment to the Press are matters which cannot be postponed as t delay in the supply of forms and the printing of Educational Text Books is due, in the main to the want of machine equipment and the necessary buildings to house the machines. The health of the employees is also suffering and ~~cases~~ cases of serious illness amon employees as a result of working long hours in over-crowded rc are becoming frequent.

For the foregoing reasons, I request that Government may graciously pleased to reconsider the proposals of this office and accord their sanction for providing additional accommodation to the Government Press at Bangalore.

OFFICE OF THE SUPERINTENDENT,
GOVERNMENT PRINTING IN MYSORE,

Bangalore, dated .....30th October *193* 9.

FROM

B. KRISHNASWAMY CHETTY, Esq., B.E., A.R.P.S., M.A.S.M.E

SUPERINTENDENT, GOVERNMENT PRINTING,
BANGALORE.

TO

P.H. KRISHNA RAO, Esq., M.A.,
Secretary to the Government of Mysore,
Development Department, Bangalore

SIR,

In continuation of this office letter No.P.1816, dated the 10th November 1938, regarding the extension of the Government Press buildings, to relieve the present congestion, copy of which is herein enclosed, along with the relevant correspondence on the subject of providing a Factory style machine room at the back-yard of the Press, for kind perusal, I have the honour to state that the congestion has been on the increase in recent years consequent on the growth of work in the Press and allied offices. This is especially so in the machine branch where all available space has been used up. The present machine room is an old style building with no proper ventilation and is too crowded.

Government have recently sanctioned the purchase of three Printing machines and orders have been placed with Messrs. Linotype and Machinery, Co., London, who have already shipped the machinery, therefore, it has become imperative to find additional accommodation by the time the machines arrive, i.e., in about two month's time. If accommodation is not found by the time the machines arrive, they will have to lie in the open yard, since there is not even an inch of covered space in the Press premises. It is in the

pleased to order a factory style roofed machine room being put up immediately at the back-yard of the Press so as to relieve the present overcrowding in the machine room and also find immediate accommodation for the machines now on order and which will arrive in the next two months or so.

I request the favour of immediate orders in the matter.

I have the honour to be,
Sir,
Your most obedient servant,

30/10

Superintendent.

Letter No.P.1816, dated the 10th November 1938, from the Superintendent, Government Printing, Bangalore, to the Secretary to Government, Development Department, Bangalore.

With reference to Government Order No.P.W.933-6/S, dated the 22nd September 1938, directing that the question of extending of the Government Press Buildings at Bangalore may lie over for the present, I beg to submit for the reconsideration of Government th urgent need for the extension of the building and to state that i view of the terrible congestion that prevails in the present buildings, the provision of additional accommodation and additional equipment to the Press are matters which cannot be postponed as the delay in the supply of forms and the printing of Educational Text-books is due, in the main, to the want of machine equipment and the necessary buildings to have the machines. The health of the employees is also suffering and cases of serious illness among the employees as a result of working long hours in overcrowded rooms are becoming frequent.

For the foregoing reasons, I request that Government may be graciously pleased to reconsider the proposals of this office and accord their sanction for providing additional accommodation to the Government Press at Bangalore.

D.O. letter No.P.663, dated 26th August 1939, from the Superintendent, Government Printing, Bangalore, to the Government Architect, Bangalore.

I am enclosing herewith, as desired, a tracing of the plan of the Press building showing the proposed extension 75' x 200' of a Factory style machine room with (North-light) saw-tooth roof. The hatched portion consisting of temporary sheds, &c., has to be dismantled and some open yard now in the possession of well-boring section of the Public Works Department has to be spared to the Press for building the machine room which cannot be reduced in size in view of additional machine & equipment to be put in and also relieve

P.T.O.

relieve congestion in other parts of the Press Office.

I request you to kindly get the necessary detailed drawings made at an early date so that sanction of Government may be obtained and the work begun very early.

D.O. letter No.1013, dated 26th September 1939, from the Superintendent, Government Printing, Bangalore, to the Executive Engineer, Buildings Division, Bangalore.

In enclosing herewith a copy of my D.O. No.P.663, dated 26th August 1939, addressed to the Government Architect regarding detailed darwings and estimates for the proposed extension of a Factory Style machine room, I write to inform you that Government have sanctioned the purchase of machinery equipment costing nearly Rs.55,000/- and also approved of the building of the above extension for housing the above equipment. Orders for the above equipment have already been cabled to the Manufacturers. I, therefore, request you to kindly expedite the necessary preliminary details for starting the building at an early date; otherwise, the machine equipment will not only be idle but also will lie unprotected in the open-yard and liable for serious damage.

I shall be highly obliged if you will kindly take a personal interest in the matter and expedite the work.
